Around our churches

Newport Congregational Church community fridge and Heat Hub

We were able to purchase the Community Fridge with a monetary gift from our neighbours the Catholic Church next door. They like what we do but aren't in a position to do anything like it, so they lent collections from the 2 parish Catholic churches, one in Newport and the other in Totland to invest in our food project.

As well as the fridge we were able to purchase containers so that we can cook meals and freeze them to give to whoever needs them. We were also able to bless some of our drivers who pick the food up from local supermarkets on a weekly basis and a lady who is involved with The Junk Food Project who delivers 3 or 4 times a week. The heat hubs are Tues eve 7pm to 9pm for soup and a roll, this ties in with a men's group so they may have a Christian video running etc The other day is Thursday between 6pm and 8pm, this is a regular weekly fellowship meal we have as a church and so we have opened it up to everyone. These 2 sessions are run in conjunction with the other churches in Newport. There is a church open every day through Newport.
